Sample Open-Ended Questions (Class 1 & 2 Level)

N.B.-Open-ended questions are questions that can't be answered with a "yes" or "no" response, or with a short or static answer. Examples of open-ended questions:

The Lion and the Mouse

A lion was sleeping in a forest. A little, brown mouse ran up and down all over him. This woke the lion up. He got angry. He roared out loud.

This frightened the mouse. He wanted to run away. But the lion caught him by his tail.

What was the colour of the mouse?

'You naughty, little mouse. I will eat you up,' said the angry lion.

'I am sorry, O King,' cried the little mouse. 'Please let me go this time. I promise to help you some day.'

'Ha! Ha!' laughed the lion. 'A little animal like you can never help me.' The lion let the mouse go.

The next day, the lion was caught in a net spread by a hunter. Just then, the little mouse was passing by.

He saw the lion. The lion was sad.

The mouse went up to the lion. He cut the net with his sharp teeth. The lion was free.

'See, I kept my promise,' said the little mouse.

The lion said, 'Yes'. Then they both laughed and became good friends forever.

- Aesop's fable
